Recovery PIN - G07274070

From your main page you will be able to see the student(s) associated with your account. It will show you when your son or daughter last logged in to Show My Homework, and the recovery PIN they can use to access their account in the event of lost details.

From this menu you will also be able to reach the **Homework**, **Gradebook**, and **Notice board** pages for each student associated with your account.

To see homework for students connected to your account, simply click on "**Homework**" from the menu under the student whose to-do list you wish to view.

On this page homework is sorted into two tabs, **Recent** and **Upcoming**. In the **Recent** page tasks with the nearest due dates will be displayed. In the **Upcoming** page, homework which is due further in the future will appear. If your child has submitted the homework the task will display "Submitted" and any graded homework will display the score.

Using the Gradebook

Last Updated: Aug 06, 2015 12:26PM BST

The Gradebook is how you can see the grade, submission status, and any teacher comments for your child's homework.

Once you log in, you will be taken to your homepage which shows the profiles of your child or children. Please just click on the **Gradebook** button to view the Gradebook for that specific student.

There are some filters at the top just in case you want to narrow the classes down by subject, teacher, or submission status.

Assignments are organised by their due dates. For more information about the assignment, please click on its title. Alternatively, click on View Results to see more details about the student's grade.

The colour of each box represents a submission status. A key for the colours and their meanings is located directly below the filters.

If a grade has been entered, it will appear in the Grade box for the assignment.

Announcements

Last Updated: Sep 01, 2015 06:20PM BST

Announcements are a great way to keep up to date with what's going on in the school. These are created by the school and can be sent to individual classes or can be set to the whole school.

In order to view the announcement that is being set in relation to your student, simply log in to your account or set up email notifications so you will be easily kept in the loop.

Checking online: To check the Announcements online, simply log in to your profile and visit the "Notice Board". Notifications for any new Announcements will also be displayed on the Notifications icon at the top of the page.

Email notifications: To receive the Announcements to your email address, please make sure you have added your email address on your profile. If you need to change or update this, simply click on Edit Profile.

Events

Last Updated: Sep 01, 2015 06:21PM BST

Events are a great ways to keep up to date with what's going on in the school. They can also be sent straight to your email address so you will be easily kept in the loop.

Events can be sent to individual classes or can be set to the whole school. In order to view the event that is being set in relation to your student, simply log in to your account and select the **Notice board**.

A benefit of **Events** is the ability to have them come straight through to your email address. You can do this by linking your account to your personal email address and signing up to receiving notifications from your settings page.
